

W DIGITAL ROADMAPPING

WORK-TECH

PENNSYLVANIA MANUFACTURING SURVEY SAYS:

- 75% of companies use in-house training experts or fellow workers and less than 10% use outside training sources
- 87% are or will be adopting technology and innovative systems because they want increased productivity, eliminate repetition, lower costs, and improve existing systems.
- Obstacles against upgrading: too complex for existing procedures and process, technically un-skilled workers, and cost too much.
- Majority willing to work with other PA companies if provides cost saving.

Work-Tech can assist your company with creating a digital roadmap to produce achievable results through do-it-yourself, low-cost or in-depth strategies.

Here's where Work-Tech can work:

WORKING WITH WHAT YOU HAVE

- Digital employee teams
- Process upgrades
- Gap analysis feedback

LOW COST OPTIONS

- Software upgrade of existing systems
- Education and/or training
- Workforce efficiencies

ADVANCED ENHANCEMENTS

- Digital marketing
- Digital technology upgrades
- Digital teams
- Customer experience

A TECH-SAVVY WORKER IS CHEAPER THAN BUYING ANOTHER "SMART" MACHINE

Contact Work-Tech to receive up to \$5000 worth of technology consulting hours to develop your company's digital roadmap.
